RENTELLY

SHORT-TERM BOOKING · RENTELLY.COM

Short stays you can trust.

Verified homes, clear prices and a booking someone stands behind. Villas, beach chalets, apartments, camps and farm houses on iOS, Android and web.

THE PROBLEM

Booking a holiday home still means trusting a stranger.

In most beach and city destinations across the region, short stays are arranged in chat groups and through brokers. A deposit goes out on a promise.

INFORMAL SUPPLY

Word of mouth and brokers

Owners rent through messaging groups. Availability is a phone call, and a deposit is a leap of faith.

OPAQUE PRICING

A different number for every caller

Prices move with the season, the caller's accent and the broker's mood. Guests never know if they paid the right price.

NO RECOURSE

Nobody to call

No verified identity, no booking record, no one to call when the key does not turn up. One bad stay and the guest never books again.

THE IDEA

Verified homes. Clear prices. A booking someone stands behind.

Rentelly takes the informal rental market and gives it the three things it never had: a checked listing, a transparent nightly price, and a protected reservation. The home is still the owner's. The trust is ours.

From search to a protected booking in four taps.

1

Search

Destination, dates and property type in one place.

2

Choose a home

Verified photos, amenities and one clear nightly price.

3

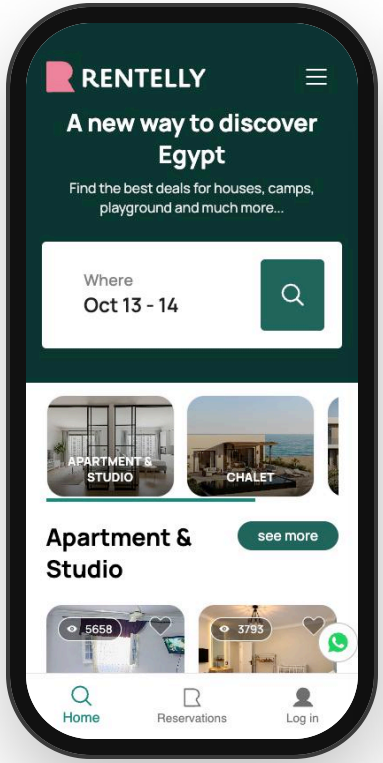

Reserve

A protected booking with a record on both sides.

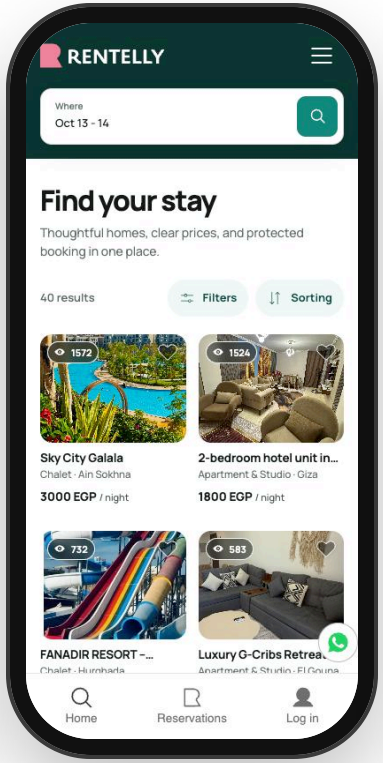

4

Stay and rate

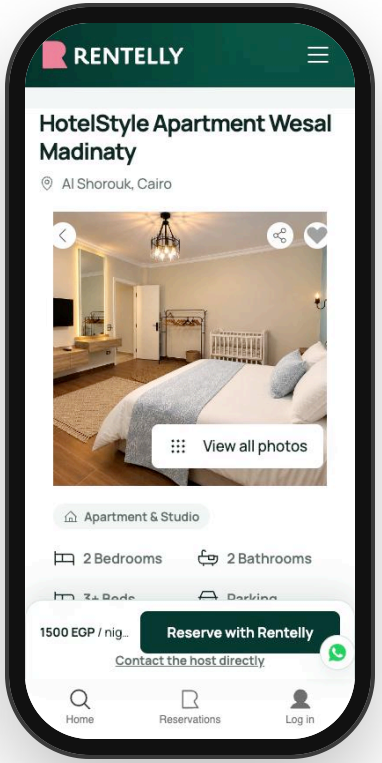

Support a tap away. Ratings keep the best hosts on top.

VERIFIED LISTING

WHERE WE ARE TODAY

Live, listed and booking on three platforms.

Supply is verified before it goes live. Guests can browse in Arabic or English, pay in local currency, and reach a support line that answers.

SUPPLY

700+

verified listings, checked before going live

RANGE

5

property types: villas, chalets, apartments, camps, farm houses

REACH

8

destinations, from beach resorts to city stays

PLATFORMS

3

native iOS and Android apps plus the full web marketplace

MARKET · LAUNCH COUNTRY

We started in a record tourism market.

Our first market welcomed its highest-ever number of international visitors in 2025, with a government target of 30 million a year by 2030. Add a large domestic holiday habit on two coastlines, and short stays are one of the fastest-growing corners of travel.

INTERNATIONAL VISITORS · 2025

19M

a record year, up 21% on 2024, four times the global growth rate

TOURISM REVENUE · FY 2024/25

$16.7B

up 16% year on year, with 2026 expected to pass $20B

GOVERNMENT TARGET

30M

visitors a year by 2030, with new coastal cities built to receive them

Ain Sokhna beach chalets

Hurghada villas

North Coast summer stays

Cairo city apartments

El Gouna boutique

Marsa Alam eco lodges

Alexandria apartments

Fayoum & Siwa camps

BUSINESS MODEL

Free to browse. We earn when a stay is booked.

Free

Everything up to the reservation

Searching, browsing, saving favourites and contacting hosts cost the guest nothing. Listing is free for owners, so the marketplace fills.

Per booking

Protected reservations

When a guest reserves with Rentelly

A service fee on each protected booking, paid for the verification, the record and the support that come with it. Premium placement and host tools come next, on the same inventory.

Illustration, not a forecast: 1,000 protected bookings a month at an average value of $120 and a 12% service fee.

$14,400

A MONTH · $172,800 A YEAR

WHY GUESTS COME BACK

Trust is the product. Everything else is a feature.

Verified listings

Every home is checked before it goes live. Owners are identified and photos match the property.

Protected booking

Reserve with Rentelly and there is a record on both sides, a confirmation, and a team to call if something goes wrong.

Hosts win too

Free listing, a calendar instead of a phone that never stops ringing, and guests who arrive already trusting the booking.

Transparent pricing

One nightly price in local currency, shown up front. No seasonal surprises, no different numbers for different callers.

Bilingual, local support

Arabic and English across the app and the web, with a support line that answers around the clock.

Built to be switched on elsewhere

Destinations and currencies are configuration, not code. A new country is a switch, not a rebuild.

WHERE THE STORY GOES

One country first. The region next.

Four chapters. Each one makes the last one worth more.

CHAPTER 1 · NOW

Verified supply

700+ checked listings across eight destinations, five property types, three platforms. The marketplace is live and booking.

THE FOUNDATION

CHAPTER 2

Protected bookings at scale

Online payment on every reservation, host calendars and pricing tools, ratings after every stay. Trust becomes the default.

THE REPEAT ENGINE

CHAPTER 3

The Gulf demand engine

Arabic-first campaigns across the Gulf, and partnerships with airlines and travel agents who already sell the destination.

THE GROWTH CHAPTER

CHAPTER 4

New markets

The same product, a new destination switch and local payment rails. The region's destinations share the same informal rental problem, and the same fix.

THE SCALE CHAPTER

NEXT CHAPTER

Every holiday home should be as easy to book as a hotel.

Verified homes, clear prices, a booking someone stands behind. Built in one market, designed for the region. Let’s talk in Lisbon.
